

Messy Church Masterclass Discipleship – read before you come

- If you have time, please make a paper boat beforehand, as described on the **instructions sheet**. But don't worry at all if you don't (or if you end up with a crumpled piece of paper!) – you can always improvise with a small object of any sort.
- The **Messy Church Discipleship islands** map can either be printed off or displayed on your screen.
- The **model of reflective practice** is for your reference – you won't need to refer to it in the session.
